

Cookies Policy

Our Cookies Policy explains how we collect and use information from and about you when you use our website and other Token Trade services. We have provided this cookie policy to tell you more about why we use cookies and other similar identifying technologies, the types of cookies and similar technologies we use, and your choices in relation to these technologies.

Cookie overview

A cookie is a small piece of data that is sent to your browser or device by websites, mobile apps and adverts that you access or use. This data is stored on your browser or device and helps websites and mobile apps remember things about you. For example, cookies may help us remember certain preferences you have selected, such as your language preference.

Our use of cookies

Like most online services, Token Trade uses cookies for a number of reasons, such as protecting your <https://token-trade.io/> data and account, helping us see which features are most popular, counting visitors to a page, improving our users' experience, keeping our services secure, and just generally providing you with a better, more intuitive and satisfying experience. The cookies we use generally fall into 1 of the following categories

Preferences - we use these cookies to remember your settings and preferences. For example, we may use these cookies to remember your language preferences.

Security - we use these cookies to help identify and prevent security risks. For example, we may use these cookies to store your web-session information, to prevent others from changing your password without your username and password.

Performance - we use these cookies to remember your settings and preferences. For example, we may use these cookies to remember your language preferences.

Analytics - we use these cookies to help us improve our services. For example, we can use these cookies to learn more about which features are most popular with our users and which ones might need some tweaks.

Advertising - we use these cookies to deliver advertising, to make adverts more relevant and meaningful to consumers, and to track the efficiency of our advertising campaigns, both on our services and on other websites or mobile apps.
